BACKGROUND:

The current Clackamas County Evidence Facility built in 1992 provides the only secure storage for the Clackamas County Sheriff's Office. With nearly 80,000 pieces of evidence being stored at any one time waiting for adjudication, returns to the public, or meeting the recent statutory measures requiring longer storage of items, the facility has quickly outgrown the 3600 square feet that it occupies.

In addition to the required storage needs, the Evidence Facility houses 6 employees in little more than 100 square feet of office space. This has generated unsafe conditions in the fact that the Evidence facility must use the same area for cataloging all means of evidence as well as day to day general office use, and without a separate area to return items to the public, they are required to open otherwise secured areas to complete the transaction.

To address these issues, it has been determined that a tenant improvement project in the Silver Oak Building will provide the best possible solution. The proposed new evidence facility will not only allow ample storage area, it will consolidate two currently off-site investigative units, permit a secure and safe means of returning items to the public, and make available future growth potential without sacrificing the high level of service required to the Sheriff's Office and the public. This contract will allow the installation of the structural concrete walls.

This contract has been reviewed and approved by County Counsel.

RECOMMENDATION:

Staff respectfully recommends the Board approve the contract with Brockamp & Jaeger, Inc. for the CMU Walls Rebid at the Silver Oak Building Project.

Sincerely,
