What you need to know about drug coverage categories

- Both generic and brand-name drugs are covered subject to the terms of your plan.

- If your brand-name benefit includes a copayment or a coinsurance and you request a brand-name drug when a generic is available, regardless of reason, you will be responsible for the cost difference between the brand-name and generic drug in addition to the brand-name drug copayment or coinsurance indicated on the benefit summary. Your total cost, however, will never exceed the actual cost of the drug.
- Compounded drugs are medications that are custom prepared by your pharmacist. These prescriptions must contain at least one Food and Drug Administration (FDA) approved drug.
- Specialty drugs are prescriptions that require special delivery, handling, administration and monitoring by your pharmacist.
- Self-administered chemotherapy drugs are covered under your pharmacy benefits or your medical benefits, whichever allows for your lowest out-of-pocket cost. Please refer to your medical Benefit Summary for more information.

Using your prescription drug benefit

- Your prescription drug benefit requires that you fill your prescriptions at a participating pharmacy.
- Be sure you present your current Providence Health Plan member identification card, along with your copay or coinsurance when you use a participating pharmacy.
- You may be assessed multiple copayments for a multi-use or unit-of-use container or package depending on the medication and the number of days supplied.
- You may purchase up to a 90-day supply of maintenance drugs using a participating mail-service or preferred retail pharmacy. Not all drugs are considered maintenance prescriptions, including compounded drugs and drugs obtained from specialty pharmacies.
- Most specialty and chemotherapy drugs are only available at our designated specialty pharmacies. For more information, visit us online at www.ProvidenceHealthPlan.com.
- Diabetes supplies may be obtained at your participating pharmacy, and are subject to your group's medical supplies and devices benefits, limitations, and coinsurance. See your Member Handbook for details.

Using your prescription drug formulary

- The Providence formulary is a list of FDA-approved prescription brand-name and generic drugs developed by physicians and pharmacists. It is designed to offer drug treatment choices for covered medical conditions.
- The formulary can help you and your physician choose effective medications that are less costly and minimize your out-of-pocket expense.
- Some prescription drugs require prior authorization or a formulary exception in order to be covered; these may include select formulary agents, non-formulary agents, step therapy, and/or quantity limits as listed in our Prescription Drug Formulary available on our website. If a formulary exception is approved, your generic or brand-name cost share will apply.
- Effective generic drug choices are available to treat most medical conditions. Visit www.ProvidenceHealthPlan.com for answers to frequently asked questions about both generic drugs and the formulary.

Ordering prescriptions by mail

- To order prescriptions by mail, your provider may call in the prescription or you can mail your prescription along with your member identification number to one of our participating mail-order pharmacies.
- To find participating mail-order pharmacy information visit us online at www.ProvidenceHealthPlan.com.

If you use a non-participating pharmacy

- Urgent or emergency medical situations may require that you use a non-participating pharmacy.
- If this occurs, you will need to pay full price for your prescription at the time of purchase. Reimbursement forms are available online.
- Reimbursement is subject to your plan's limitations and exclusions.
