

CHAPTER 6: EMERGENCY OPERATIONS

Clackamas Fire Operations Group (CFOG)

The Clackamas Fire Operations Group (CFOG) is a technical subcommittee of Clackamas District Fire Defense Board. The CFOG is responsible for coordinating fire operations issues and procedures for all fire districts in Clackamas County. The CFOG extended its membership to wildland fire agencies to address potential wildfire issues.

The CFOG has been focused on regional fire operations issues, and as such has not been meeting regularly to discuss local issues. The 2012 CCWPP Update engaged the CFOG to update the CWPP Emergency Operations Action Plan, and invigorated the group to continue meeting to address the high priority actions that need to be taken to improve wildland response efforts.

Emergency Operations Objectives

- I. Enhance interoperability of fire districts, USFS, ODF, and neighboring jurisdictions.
- II. Improve upon current system for utilizing fire resources within the county and neighboring jurisdictions.
- III. Clarify and exercise policies and procedures from the Fire Operations Center (FOC) and Emergency Operations Center (EOC).

The following Objective has been completed and thereby removed from the list because ICS is now integrated pragmatically into training standards.

Strengthen Incident Command Systems and improve efficiency in wildfire response efforts by setting and implementing consistent, all-hazard training standards.

Emergency Operations Accomplishments

Many of the action items pertaining to integration of the National Incident Management System and Incident Command System revised training standards into training programs have been accomplished. In addition, the Department of Public Safety Standards and Training (DPSST) and National Wildland Coordinating Group (NWCG) have made progress in aligning training standards for wildland and structural firefighters.

The Clackamas County Fire Prevention Cooperative procured \$100,000 in funding to purchase and post address signs in the highest priority areas throughout the County. Each Fire Agency provided high priority areas for signage (Table 6-1. Address Signage)

Emergency Operations Actions

The Emergency Operations Action Plan has been updated since 2005 to reflect accomplishments and ensure that the action plan remains relevant to current issues (Table 1-1.2012 CCWPP Action Plan). The high priority risk assessment actions to be addressed by the wildfire planning team will be to:

- 1) Include 12 hour operation period in FDB Fire Mutual Aid Agreement.
- 2) Develop an FDB Communications Work Group.
- 3) Conduct a Conflagration Exercise.
