Staff: Jared Anderson

Guests: Ann Lininger (Clackamas County), Mary Lynn Jacob (Molalla), Jason Tuck (Happy Valley), Kim Anderson (Sunrise Water)

<<<<<<<<<< DRAFT Minutes >>>>>>>>>>

Members of the Cities Subcommittee identified several potential topics – or focus areas – for future discussion:

1. Urban services & Incorporation: Establish that cities, rather than the county, are the appropriate providers of urban services and identify incentives or disincentives to promote annexation or incorporation of urban unincorporated lands.

2. Transportation $ (Metro): Vet projects and prioritize funding requests for federal transportation funds distributed though Metro.

3. Tourism: Identify opportunities to expand tourism opportunities in the county. Agri-tourism is growing, with popular attractions such as wineries, flower farms and specialty nurseries drawing visitors and generating supplemental income to farming operations.

4. Regional Centers: Identify and prioritize future regional centers in the county. Regional centers are compact mixed-use areas of high-density housing, employment and retail that are the focus of transit and highway improvements.

5. Brownfields/Industrial Areas: Identify brownfield sites and financial and technical resources that can assist property owners in their redevelopment. The clean-up and reuse of brownfields supports efficient land use and protects surrounding farmland and natural areas.
