

Approved 2011

Points of Interest

Owner: Bob and Ruthanne Carothers

Location: Seville Ave, Lake Oswego

Species: Douglas Fir (*Pseudotsuga menziesii*)

Age: Approx 100 years old

Height: 130 feet

Canopy: 70 feet

Diameter: 49 inches

Circumference: 13 feet, 2 inches

Health: Good

Significant Features

A stately and beautiful specimen.

Carothers Property #1

Douglas Fir

This Douglas Fir tree is a native species of the Pacific Northwest.

A typical Douglas Fir can reach 200 to 250 feet and have a trunk diameter from 4 feet 9 inches to 6 feet 6 inches.

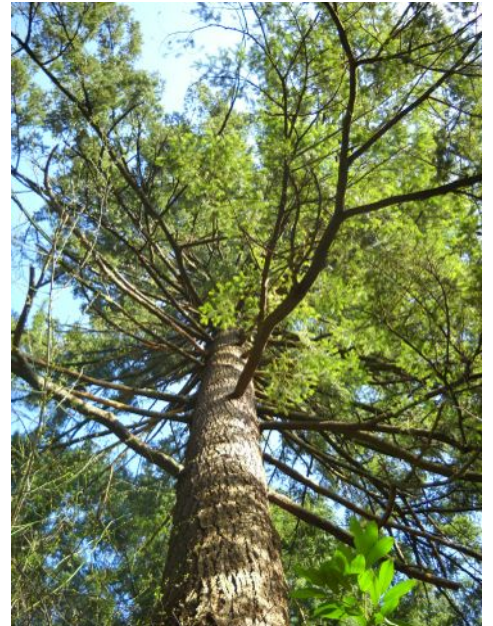

This Douglas Fir provides a home to the local red-tailed hawks and their fledglings. The site is also certified as a wildlife habitat site by the National Wildlife Federation.

The site is located in the Lake Grove area which was logged in the past to heat the Oregon Iron Company foundry that closed in 1894.

This tree is nominated and approved under the Heritage Tree category of specimen.
