

830 UTILITY CARRIER CABINETS

830.01 STANDARDS FOR OFFSITE SERVICE FACILITIES

A. Size Limits:

1. Within the Urban Growth Boundary - The combined volume of all utility carrier cabinet equipment located on a lot shall not exceed 40 cubic feet. The combined volume for the urban commercial and industrial areas shall not exceed 200 cubic feet.
2. Outside the Urban Growth Boundary - The combined volume of all utility carrier cabinet equipment located on a lot shall not exceed 250 cubic feet.
3. Additional cubic feet of equipment on a lot shall be subject to a Conditional Use permit review under Section 1203.

B. Height Limits: The maximum height limit shall be five feet.

C. Utility carrier cabinets may be located in the right-of-way or within the required setback area of the underlying district.

D. Utility companies shall clearly identify their carrier cabinets and provide an emergency telephone number where accidents or public safety concerns may be reported.

E. Within the Urban Growth Boundary, carrier cabinets shall be designed, screened, or landscaped to blend with the development on the same or adjacent lot.

[Amended by Ord. ZDO-224, 5/31/11; Amended by Ord. ZDO-248, 10/13/14]
